Sensational Suit.

Mrs. Emily Buford Briscoe, of Covington, has filed suit for divorce against her husband, Prof. Frank L. Briscoe, teacher of music in the public schools of that city. The plaintiff in her petition alleges that they were married June 24, 1891, and the result of their union is a child, Nila Guy Briscoe, aged six years. She charges the defendant with cruel and inhuman treatment toward her, and with false accusations of her unchastity. She further alleges that the defendant has the title to a tract of land in Jessamine county, Ky., known as the Palisades, better known as the High Bridge Camp Meeting Grounds. She claims that while the title of the property is in her husband's name, by her own industry and earnings she has paid \$4,000 of the \$5,000 purchase price, besides improvements placed on said property amounting to \$2,500, and that he is threatening to dispose of the above-described property, and that if necessary to keep her from enjoying it he would set fire to the cottages and destroy them. She further claims that the defendant is an improper person to have the care and control of the child. The plaintiff prays for an absolute divorce on the above grounds, for the care and custody of their child, for an allowance of alimony and further asks that the defendant be enjoined and restrained from coming about her or her child, or in any way molesting or disturbing her or the child until further orders of the court. In the absence of Judge Tarvin, the restraining order asked for was granted by County Judge M. T. Shine.

Mrs. Briscoe, who is a most charming lady, is well-known in Danville and has many warm friends throughout Central Kentucky who will sympathize with her in her domestic troubles. She is a sister of Mrs. Oscar Taylor and Mrs. May Burd Alexander.—Danville Advocate.

One feature was a patriotic song—"Red, White and Blue"—by the children. Miss Eliza Lusk, our worthy Superintendent, was present, greeting her many friends, and reports the meeting to be one of the most enjoyable and profitable she ever attended. Among others present were Miss Janie Lusk, Prof. Postle and Prof. Patterson, Principal of the Lancaster Graded Schools.

By no means least among the enjoyments of the day was a very bountiful dinner served by the citizens of Buena Vista and vicinity, in the shade of the beautiful trees in the yard.

The people of Buena Vista have become very much interested in the cause of education and made the day one long to be remembered by all present. Much credit is also due Miss Anderson, the chairman of the Association. The following resolution was adopted:

WHEREAS, It has pleased Almighty God in His infinite Wisdom to remove from our midst our fellow-teacher, Mrs. America Harris; Therefore, be it

A CRITICAL TIME

During the Battle of
Santiago.

SICK OR WELL, A RUSH
NIGHT AND DAY.

The Packers at the Battle of Santiago de Cuba were all heroes. Their Heroic Effects in Getting Ammunition and Rations to the Front Saved the day.

P. E. Butler, of pack-train No. 3, writing from Santiago, De Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa, and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by E. E. McRoberts.

Sympathetic Husbands.

The sympathetic tenderness of a loving husband is everything to an expectant mother, especially during her first ordeal. George Layton, Esq., a prominent druggist of Dayton, O., gives the following case:

A customer of mine, whose wife has used four bottles of "Mother's Friend" before confinement, says, after seeing the effects of the remedy, that if she had to go through the ordeal again, and there were but four bottles on the market, and the cost was \$100 per bottle, she would have them.

"Mother's Friend" is a scientifically compounded liniment which affords certain relief in the various ailments preceding childbirth, and assures proper elasticity to the cords and muscles involved in the final ordeal.

"Mother's Friend" is sold by druggists, or expressed on receipt of one dollar.

Valuable book, "Before Baby is Born," mailed free on application.

FARM AND STOCK NOTES.

Hudson sold to Price Bros., 26 yearlings at 4 cents.

Turney bought a nice bunch of calves at \$20. per head.

V. A. Lear shipped a nice load of 200 lb hogs of his own raising to Cincinnati market this week.

Hudson, of Adair County, sold to Robinson & Morgan 26 cattle averaging 900 lbs at \$3.65.

Dead wood is a deadly burden to a living tree. Letting the dead limbs remain robs the live part of needed sap.

Star Pointer has beat 2:00 four times.

Thin skinned fruit, as a rule, are very poor keepers; thick-skinned ones are much better.

You invite disappointment when you experiment. DeWitt's Little Early Risers are pleasant, easy, thorough little pills. They cure constipation and sick headache just as sure as you take them. Storms Drug Store. 1m

Many farmers cut their tobacco too green. In order to obtain the best quality and color it should be allowed to ripen well before cutting. This ap-

plies especially this year, on account of so much wet weather.

The three States of Minnesota, North Dakota and South Dakota will produce 200,000,000 bushels of wheat this year. Never were such harvests seen before, and 1898 will probably stand as a record breaker for a long time.

Central Kansas farmers are cutting up vast quantities of damaged corn. Harvesters are kept running day and night in some cases by means of two "shifts" of hands. The work, therefore, proceeds with great rapidity and the forage is secured in the best possible condition.

More than twenty million free samples of DeWitt's Witch Hazel Salve have been distributed by the manufacturers. What better proof of their confidence in its merits do you want? It cures piles, burns, scalds, sores, in the shortest space of time. Storms Drug Store. 1m

This is the month to begin feeding fattening hogs. Begin by cutting off the corn and feeding it stalk and all. Give a light ration at first and gradually increase until the hogs have all that they will eat up clean. A good feed of slop, made with mill feed and skim milk, will help materially in maintaining a good growth at a low cost.

There were several hundred cattle on the market Monday but few changed hands, the quality not being the best. Those offered were at a less price than they had been offered on previous occasions. The mule market was slow. Sucklings brought from \$10 to \$40 and a number were refused at those figures on account of size.

Cattle was brought from 3 to 3 3/4 cts while the better class brought \$3.65 to \$4. but few changing hands at the latter prices.

Farmers who pack their fruit so that all of the large apples or potatoes are at the head of the barrel, and the remainder of the barrel is filled with a third class produce, should not complain if they have prices cut. The merchant who sells such stuff is held responsible in our best markets, and must do what he can to protect his trade. The farmer who resorts to questionable tricks of this kind must soon suffer. A visit to the markets and a study of conditions and demands may often change the profit and loss on the farm.—Epitomist.

There are numerous instances where "hired men" are better feeders than their employers. This often accounts for the fact that the hired man does not have to pay for the feed he uses. There are a lot of fellows who feed their own grain who are altogether too careful of the feed to ever make those sleek, fat backed pigs that sell well. If you are one of these "careful" fellows, and you have a good trusty hired man, you had better turn the corn crib, shorts bin and pigs over to him, while you do the rest of the chores. And, mind you, don't tell him to count the ears.

Catarrh is Not Incurable

But it can not be cured by sprays, washes and inhaling mixtures which reach only the surface. The disease is in the blood, and can only be reached through the blood. S. S. S. is the only remedy which can have any effect upon Catarrh; it cures the disease permanently and forever rids the system of every trace of the vile complaint.

Miss Josie Owen, of Montpelier, Ohio, writes: "I was afflicted from infancy with Catarrh, and no one can know the suffering it produces better than I. The sprays and washes prescribed by the doctors relieved me only temporarily, and though I used them constantly for ten years, the disease had a firmer hold than ever. I tried a number of blood remedies, but their mineral ingredients settled in my bones and gave me rheumatism. I was in a lamentable condition, and after exhausting all treatment, was declared incurable. Seeing S. S. S. advertised as a cure for blood diseases, I decided to try it. As soon as my system was under the effect of the medicine, I began to improve, and after taking it for two months I was cured completely, the dreadful disease was eradicated from my system, and I have had no return of it."

Many have been taking local treatment for years, and find themselves worse now than ever. A trial of S. S. S. For the Blood will prove it to be the right remedy for Catarrh. It will cure the most obstinate case. Books mailed free to any address by Swift Specific Co., Atlanta, Ga.
